10. BRIEF SUMMARY OF SIGHTING Strange a/c hovering over house for about 3 minutes. Described as round disc 100ft in diameter w/red glow around end. Ports along side & dome on top. No sound. Heat given off by obj. Hovering height estimated at 200-225ft. Obj shot away & was gone in seconds. No more heat. Called father to door & father said obj (light) was a/c.		11. COMMENTS Father told daughter that obj in distance was a/c when called to observe. No reason to alter this analysis. Case evaluated as a/c. Some inconsistencies in rpt in that obj shot away & was gone in seconds, yet when father was called he observed a/c. Apparently obj was still in sight.

Dear Sir:

This may not be of much importance to you but to me it is.

On April 22, 1963, I saw a strange aircraft that hovered above our house for three minutes. It wasn't the usual kind but this one was a round disk about 100 feet in diameter with a red glow around the rim and parts in the center of the disk and a dome on top. There was no sound, but if it wasn't for the heat the thing gave off I might think it was nothing. It hovered for 3 minutes at a height of 200 to 225 feet then went away and was gone in seconds. The heat I copied.

When my father got to the door and he said there was a spot of light he said it was an airplane but I know it wasn't.

The thing is so unbelievable but

any, it looks like something out
of science-fiction.

I would like to know what is go-
ing on and what it was

Sincerely
